

CONSTRUCTION PHASING

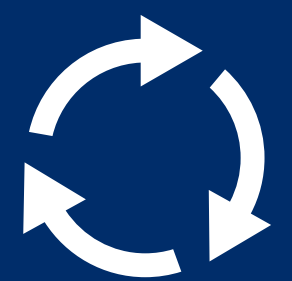

4 Proposed Construction Phases*

**Construction phasing may be modified by the contractor*

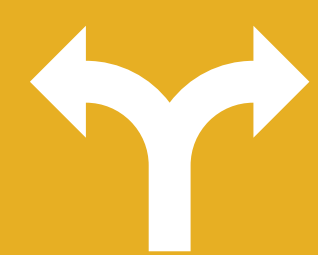

Construction work areas generally divided as follows:

- South of Route 130 – Between Bingham Road and Route 130
- North of Route 130 – Between Route 130 and Green Street
- Northern Route 981 tie-in – Work within Airport Industrial Park and construction of new Route 981/Airport Road Roundabout
- Construction of new Route 981 alignment – between Route 2023/Green Street and new Route 981 alignment at Airpark

The new Route 2023 Roundabout will likely operate temporarily with two approaches until new Route 981 is constructed

Official detour routes will primarily follow state routes
